National Research University Higher School of Economics (HSE) offers an English Language course and an English for Beginners course as optional courses for the first and second year students pursuing their undergraduate degree. English for Beginners can be attended only by students who didn't study English at school.

At the end of the first and second year, regardless of whether they attended the English language course or not, all the students are required to take an exam to prove their knowledge of the English language and their ability to take English-taught professional courses. At the end of the second year the students are to take Independent English Language Test assessed by certified experts.
